OBJECTIVE

MBA candidate (AUD, 2027) with 2+ years of professional experience working hands-on with data – building dashboards, running KPI analyses, and translating metrics into business decisions. Transitioning into Data Analytics and seeking a summer internship where I can apply my Excel, SQL, and GA4 skills to real-world analytical problems while deepening my technical foundation.

EDUCATION

- | | |
|---|-------------------------------------|
| Dr. B.R. Ambedkar University Delhi (AUD)
<i>Master of Business Administration (MBA)</i>
– Relevant Coursework: Business Analytics, Financial Management, Managerial Accounting, Business Economics, Strategic Management | Delhi, India
Aug 2024 – Aug 2027 |
| University of Delhi
<i>Bachelor of Arts</i> | Delhi, India
Jul 2021 – Aug 2024 |

SKILLS

Data Analysis: MS Excel (VLOOKUP, Pivot Tables, Power Query, What-If Analysis), SQL (joins, aggregations, subqueries), Google Analytics GA4, Google Search Console
Reporting & BI: Power BI, DAX, KPI Dashboard Design, Variance Analysis, Revenue Attribution, Funnel Analysis, Conversion Rate Optimisation
Business Interpretation: ROI & Cost-Benefit Analysis, Market & Competitor Research, Budget Tracking, A/B Testing
Soft Skills: Data Storytelling, Analytical Thinking, Cross-Functional Collaboration, Business Writing
Languages: English (Professional) | Hindi (Professional)

EXPERIENCE

- | | |
|---|---|
| Tidalwave Solution Pvt Ltd
<i>Digital Marketing Specialist</i>
– Built and maintained GA4 dashboards tracking traffic, goal completions, and revenue attribution across 5+ client accounts; insights contributed to 20%+ improvement in client conversion rates.
– Conducted weekly variance analysis on campaign KPIs (CPC, CTR, ROAS); identified spend anomalies and recommended bid strategy adjustments to reduce cost-per-acquisition.
– Synthesised data from multiple sources into structured performance reports covering traffic trends, revenue attribution, and period-over-period comparisons for non-technical stakeholders.
– Monitored multi-channel advertising spend using ROI and cost-benefit frameworks to flag inefficiencies and inform budget reallocation decisions. | Bengaluru, Karnataka
Sep 2023 – Nov 2024 |
| KEY4U Information Consultants
<i>Digital Marketing Executive</i>
– Maintained KPI tracking dashboards monitoring organic traffic and performance metrics; reported progress against quarterly business targets.
– Aggregated and cleaned data from Search Console, GA4, and Ahrefs to build reliable datasets for reporting – establishing early data hygiene practices.
– Conducted competitor and market research using structured frameworks to surface growth opportunities and support data-driven content decisions. | Gurugram, Haryana
Feb 2023 – Aug 2023 |

PROJECTS

- | | |
|---|------|
| Blinkit Sales Performance Dashboard Power BI, SQL, DAX
– Designed an end-to-end interactive Power BI dashboard analyzing Blinkit sales performance across product categories, outlet types, and geographic locations.
– Applied DAX measures and data modeling to track revenue trends, outlet performance, and item-level insights enabling category-level strategic decisions. | 2025 |
|---|------|

- Designed a GA4 measurement plan from scratch – defining custom events, goals, and dimensions to track the complete user journey from acquisition through retention.
- Monitored funnel drop-off and retention metrics; used findings to iterate on site architecture and content, improving session depth and return-visitor rate.
- Applied search trend analysis and keyword demand forecasting to prioritise content roadmap – a practical exercise in using data to allocate limited resources.
- Compared channel CAC using cost-benefit analysis to guide budget decisions, demonstrating end-to-end analytical ownership of a live product.
